

TecDoc Catalogue

The global vehicle and spare parts catalogue.

For more than 20 years, the TecDoc Catalogue has been one of the world's leading vehicle and spare parts catalogues. With this powerful solution, we offer workshops, spare parts manufacturers and dealers the ideal basis for easy part identification, effective marketing and smooth cooperation. The TecDoc Catalogue enables the precise identification of vehicles and a quick search for the right spare part; it is always complete with current and comprehensive repair and maintenance information. Whether for searching or as a basis for your own web shop – the TecDoc Catalogue offers you the right solution to meet your needs.

By preparing the spare parts information in accordance with our internationally recognised TecDoc Standard, the seal of quality for high-value spare part product information, the data is available to you in a uniform high-quality format.

Our offer:

- One of the world's leading vehicle and spare parts databases.
- New, modern and user-friendly interface
- Intuitive search function with text-based search
- Comprehensive article information and manufacturer vehicle linkages
- Integration of Repair and Maintenance Information (RMI)
- Country-specific and internationally valid identification methods such as the VIN (Vehicle Identification Number)
- State-of-the-art technologies such as fast and globally available cloud connectivity
- Responsive design for optimized usage on tablet computer
- White Label solutions: Benefit from the global spare part and vehicle catalogue as a base for your own customized online catalogue, Web Shop or mobile app
